

coreFusion has the expertise to provide you with complete solutions to your outsourcing needs.

MS IIS Hosting

Are you developing your web sites and applications using Microsoft technology? If so, coreFusion provides robust hosting services to meet your needs.

If your needs are more than a simple HTML web site, the Microsoft web server coupled with Microsoft's SQL Server can provide the platform that you need.

Using Windows NT or Windows 2000 as a server platform, coreFusion offers web hosting with Microsoft IIS.
